Lisboa, 27th July, 1990

Dear friends,

Some of the most sucessful activities on the solidarity work in this last times has taken place in connection with the European Parliament (E.P.).

From the 24th till the 28th September the "ACP/CEE Assembly" will meet in Luxembourg. In the past, strong resolutions on East Timor have been passed several times to the great dispair of the indonesian delegation. That didn´t happen last meeting in Port Moresby (Papua New-Guinea), March 1990, in consequence of a very strong pressure by the indonesian and australian delegations. This time we have the information that Portugal along with the 5 african portuguese-speaking countries have planned a joint intervention and are intending to support the going of a delegation of "Convergência Nacionalista" to Luxembourg. For this "ACP/CEE Assembly" we call your attention to the need of any lobbying your national MEP´S.

Any further information you want, please contact us.

Hoping to have news from you,
in solidarity,

Maria José Domingos
